

# PLANT TISSUE PLUS APP: STARTER GUIDE

Centralized data control is a major benefit of utilizing the Plant Tissue Plus app. Your organization's centralized grower-farm-field trees are entered into the system through Rock River Laboratory's secure portal, found at [rockriverlab.com](http://rockriverlab.com), to be made available to your entire sampling team. This data entry is necessary to begin realizing the time saving, easy-use capabilities of the Plant Tissue Plus app while in the field.

To smoothly complete the Plant Tissue Plus app setup at [rockriverlab.com](http://rockriverlab.com), you will need a few items:

- + **Username and password to login to the member portal at [rockriverlab.com](http://rockriverlab.com)**
  - *Don't have these credentials? Call Rock River Laboratory today to set up your customer login information*
- + **Desktop, laptop, or tablet computer with access to the internet**
- + **Grower-farm-field tree information (GIS Software)**

New Plant Tissue Plus app users can follow the step-by-step written setup directions, or watch the step-by-step setup video resources accessed at: <http://bit.ly/PTPappresources>.

Rock River Laboratory customer service team members are at the ready to help you set up your Plant Tissue Plus app. Contact us with any questions or feedback:
