

Calf Fecal Starch Analysis Report

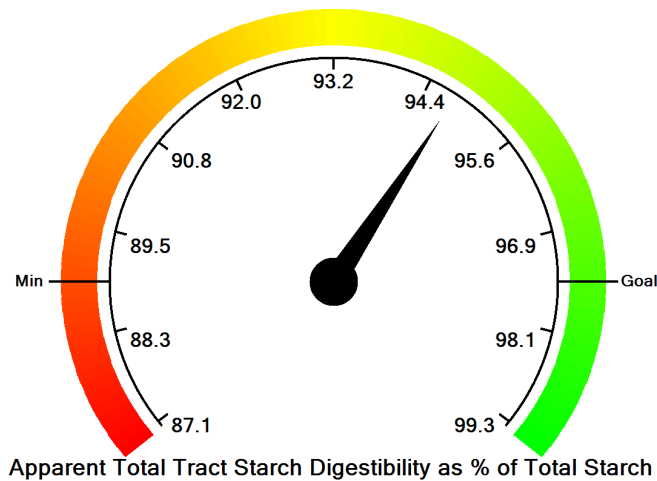

Representative: B

Manure
3 month old calves

Dry Matter 22.65%
Moisture 77.35%

Description (%DM unless specified)	Dry Matter Basis	Manure	
		60 dy Avg	4 yr Avg
Dry Matter	22.65	15.2	24.9
Starch	7.94	2.82	3.00
Apparent Total Tract Starch Digestibility as % of Total Starch*	94.77		

For analysis guidelines, please visit <http://www.rockriverlab.com>

Goal and minimums set based on 15th and 85th percentiles, respectively, of long term population data

8 Week Old Calf Fecal Starch (% of DM) and TTSD*

- Goal: 3% fecal starch / 97.8% TTSD
- Median: 8% fecal starch / 94.8% TTSD, respectively
- Min: 18% fecal starch / 88.6% TTSD

* Equation adapted from Dennis et al., J.Dairy Sci 100:6266-6271. (Table 2)
