

# Nutrient Management Planning Questionnaire

**Account Name:** \_\_\_\_\_

**Agronomy Personnel:** \_\_\_\_\_

**Farm Name:** \_\_\_\_\_

**Grower Name:** \_\_\_\_\_

**Farm County:** \_\_\_\_\_

**Grower Phone:** \_\_\_\_\_

**Address:** \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

**Why is the NMP required? (circle one):** *Farmland Preservation - EQUIP - County Ordinance*

Notes:

## Manure Information:

What type, if any, of manure storage (earth, concrete, lined, slurry) do you have, and what is the approximate capacity?

Which seasons do you remove manure from the storage unit (fall, winter, spring, summer)?

How frequently do you spread **liquid** manure (daily, weekly, monthly, or yearly)?

Choose each that apply:

- Inject your liquid manure with immediate incorporation **or**  
 Surface apply manure and incorporate within 72 hours **or**  
 Manure is not incorporated within 72 hours

How many loads of **liquid** manure do you spread each year, and how many gallons are in a typical spreader load?

How frequently do you spread **solid** manure (daily, weekly, monthly, yearly)?

On which fields do you spread solid manure?

Do you surface apply manure and incorporate within 72 hours or is manure is not incorporated within 72 hours?

How many loads of **solid** manure do you spread each year and how many tons, bushels, or cubic feet are in a typical spreader load ( $L \times W \times H = \text{ft}^3$ )?

What is the make and model of your solid and/or liquid manure spreader(s)?

How frequently do you spread summer manure?

On which fields do you spread summer manure?

How frequently do you spread winter manure?

On which fields do you spread winter manure?

If animals have access to a pasture or a fenced-in exercise area, how many hours per day are they there?  
**Locate pasture on attached field maps.**

***Fertilizer Information:***

**What is your typical fertilizer program for the following (products and rate per acre):**

***Corn:***

*Starter:*

*Broadcast (note time of year applied, for example, fall of year before, spring, sidedress, etc.):*

*Nitrogen:*

***Soybeans:***

***Alfalfa or Red Clover Hay:***

***New Seeding:***

***All others:***

## ***Cropping Information:***

*What is your typical crop rotation?*

*What is your average yield goal for each crop?*

*Would you consider using a winter cover crop?*

*What cover crop do you use to establish your new seeding?*

*What is the row spacing for corn and soybeans, if planted?*

*Other information:*

## ***Sensitive Features Information:***

*Indicate on map, or describe below, where all local and neighboring wells, waterways, streams, and ponds are located:*

## ***Land Owners/Renters:***

*Please list any rented farms, landowner names, and acreage:*

## Field Survey for Nutrient Management Plan

# Animal Housing and Cleaning Descriptions -

Type of Livestock	Number of Livestock	Weight (lbs.) or Age (months)	Management Descriptions
<b>Calves (newborn to weaning)</b>			Describe cleaning methods and frequencies for each individual liquid and solid manure source, include detailed description of all pasturing.
<b>Heifers (weaned to breeding)</b>			Describe cleaning methods and frequencies for each individual liquid and solid manure source, include detailed description of all pasturing.
<b>Heifers (bred to freshening)</b>			Describe cleaning methods and frequencies for each individual liquid and solid manure source, include detailed description of all pasturing.
<b>Dry Cows</b>			Describe cleaning methods and frequencies for each individual liquid and solid manure source, include detailed description of all pasturing.
<b>Lactating Cows</b>			Describe cleaning methods and frequencies for each individual liquid and solid manure source, include detailed description of all pasturing.
<b>Other (Beef, Swine, Poultry, etc.)</b>			Describe cleaning methods and frequencies for each individual liquid and solid manure source, include detailed description of all pasturing.
